

NTEU 2008: *Labor Management Partnerships*

Labor-management partnership works for everyone.

When partnership was in place, there were many successful and productive discussions in our agencies.

But this administration killed it, and those discussions stopped.

NTEU is supporting H.R. 3892 and S. 2197 to reinstate national and local labor-management partnership councils.

We can do it.

Because we have a strong union and a strong voice.
