

Listen up, President Bush:

It's high time you made some changes.

NTEU's Top Five New Year's Resolutions for the White House

- 1 **Stop Contracting Out.** How can you think about contracting out work until oversight is improved and A-76 rules are made more equitable to federal employees?
- 2 **End Efforts to Change Civil Service.** Instead of trying to fix something that isn't broken and restricting employee rights, work collaboratively with NTEU on solving real problems.
- 3 **Offer a Fair Pay Raise.** Your 2.2 percent increase was no holiday gift for employees.
- 4 **Close the Tax Gap.** Do it the right way—by hiring more IRS employees and giving the agency the resources it needs.
- 5 **Improve Agency Head Communications.** Why should NTEU and employees have to wait two months for an agency secretary to respond to a letter?

But if you decide to continue with your bad habits, remember,
NTEU will be watching you.
