

Get Our Guide to Maximizing Your PMAP Review

NTEU has an updated <u>guide</u> with tips on preparing for your annual PMAP progress review meeting with your supervisor.

Under your new NTEU <u>contract</u>, which takes effect July 2, one formal progress review is required during the appraisal period, but it no longer has to be midway.

To help structure the process and conversation, NTEU has prepared a members' only <u>Guide</u> to <u>Your PMAP Progress Review</u>. This will show you how to prepare for the conversation, questions you should ask and a critical follow-up step that you want to be sure to take.

You have rights and protections under your contract. Get educated so you can exercise them!
