Subject: SAMHSA Operating Status

All,

We hope you and your families continue to stay safe and healthy during this time. I wanted to let you know that we will continue in a Full-Time Telework status until April 3d. We will continue to assess and monitor the situation and OPM guidance.

Please plan to continue in your current status. Please also note that 5600 Fishers Lane is not freely accessible to staff during this time. We are asking all staff not to come to the building unless you have a special exemption from your Center/Office Director to do so.

Thank you all for your continued hard work during this time and stay well.

Thanks,
