

November 13, 2018

The Honorable Margaret Weichert Acting Director U.S. Office of Personnel Management 1900 E Street, NW Washington, DC 20415

Dear Acting Director Weichert:

I am writing in regard to the credit monitoring and ID theft services provided to the 21.5 million individuals impacted by the 2015 background investigations cyber incident as well as the 4.2 million impacted by the 2015 personnel records cyber breach at the Office of Personnel Management (OPM). According to section 632 of Division E of the Consolidated Appropriations Act of 2016, Public Law No. 114-113, OPM is required to provide impacted individuals coverage for a period not less than 10 years, lasting through Fiscal Year 2026, and must also provide not less than \$5 million in identity theft insurance.

As you know, the contracts for the services provided by ID Experts for individuals impacted by the 2015 cyber incidents are set to expire in December 2018. In 2016, OPM stated that approximately 2.4 million individuals had enrolled for services stemming from the background investigations incident and 1 million had sought services owing to the personnel files data breach. Given that the expiration of the contracts is set for next month, I am writing to request information about the plan for providing these services past December, the number of current enrollees to be transitioned, and what plans OPM has in place to notify impacted individuals, especially if a new provider is selected and individuals are required to reenroll for services.

OPM has a responsibility to protect the information of its employees, both current and former, as well as their families. Federal employees and their families continue to be greatly concerned about the potential harmful effects of such sensitive information being accessible. I look forward to hearing from you on your efforts in this matter.

Sincerely, Author M. Rearlow
