

Who is THREATENING YOUR JOB

*No president — from either side of the aisle
— should be able to politicize the civil service.*

Extreme anti-government politicians and groups have a plan to dismantle the federal workforce. By slashing rights and gutting federal unions, federal jobs would become political and employees deemed disloyal would be fired.

THREATS TO EMPLOYEES

- ▶ Fire federal employees
- ▶ Fewer promotions; cuts in pay and benefits
- ▶ No say in your telework schedule or if you even have one
- ▶ Toothless contracts written by management

THREATS TO UNIONS

- ▶ Eliminate unions across government
- ▶ Remove employees from bargaining units
- ▶ Cut union resources
- ▶ Limit a union's ability to represent you
- ▶ Give management more power in bargaining

HOW TO FIGHT BACK

Vote for pro-federal employee candidates!

Education is the key. Learn which politicians are supporting these threats and tell your family, friends and colleagues. The best way to protect yourself is to defeat these candidates in the next election.

RESPONDING TO LIES FROM THE OTHER SIDE

*Don't fall for the lies.
Know the facts.*

LIE	FACT
The "deep state" bureaucracy must be held accountable.	They want to make you loyal to a president rather than the Constitution.
It is far too difficult to fire poor performers.	They want to give management the power to fire you for any reason at all, including politics.
Unions have too much power.	You would be powerless against management and unable to negotiate your contracts.
Federal employees are politically liberal.	The federal workforce is as politically diverse as the entire country.
